

Big Win on ‘Made in Australia’ for Sanofi Consumer Healthcare

Sydney, Australia – 5 April 2019- Today [Sanofi](#) welcomed the Australian Government’s decision to support continued access to the ‘Australian Made’ logo for the Australian complementary healthcare industry. With the Government’s decision, Sanofi’s consumer healthcare products including **Ostelin®**, **Nature’s Own®** and **Cenovis®** will continue to be able to highlight their Australian manufacturing legacy and use the Made in Australia logo.

Stephen Walker, General Manager, Sanofi Consumer Healthcare said; “The Government’s amendments to the country of origin labelling reinforces their commitment to support innovation and manufacturing jobs in Australia.”

The use of the Made in Australia logo reflects the work undertaken in our manufacturing facility. The logo is a recognition of the continued investment we have made into growing our manufacturing facilities in Brisbane. Over the last six years, Sanofi has invested \$40 million to expand our manufacturing capability in Brisbane.

“We are delighted to see the bi-partisan support on this matter. We would also like to acknowledge Shadow Minister for Innovation Industry Science and Research Senator Kim Carr for his support on this matter”

“We are pleased the Government has agreed to a pragmatic solution which will provide certainty for our business and clarity and confidence for our customers about the Australian made products they are purchasing” said Stephen Walker.
