

Sanofi wins platinum award for employee wellbeing program

Sydney, Australia – June 25, 2019 - *LIFE – live and work well*, Sanofi Australia and New Zealand’s wellbeing program, has won Platinum for the Best Learning & Development Project – Wellbeing at this year’s LearnX Live Awards.

Now in its 12th year, the LearnX Live Awards is an international awards program that recognises multiple fields within talent management across the corporate, education and public-service sectors. Each year the Awards uncover incredible projects and solutions that deliver best practice and business value.

Sanofi’s Head of Human Resources for Australia and New Zealand, Michelle Zimany, said the team was proud to see the *LIFE – live and work well* program recognised as an industry leader.

“Sanofi launched *LIFE – live and work well* in 2018 as part of our ongoing focus on supporting the physical and mental wellbeing of our employees,” she said.

“The program was built by our team of Learning and Development specialists for our team members. It’s an evidence-based workshop, targeting positive emotions, positive engagement and mindfulness.

“*LIFE – live and work well* has already been experienced by nearly half of all local Sanofi employees and it has also been offered to some community partners including employees from The Smith Family.”

Michelle said that Sanofi had been working hard to help its people integrate the increasing modern day demands of work, family and life.

“*LIFE – live and work well* is part of Sanofi Australia and New Zealand’s broader wellbeing offering, which includes a range of other programs from flexible working, to childcare support, school holiday programs, long term sickness coverage and more.”

“Our program puts a spotlight on individual wellbeing with a focus on practical ways to increase overall wellbeing. It’s important to us that our people feel empowered to prioritise their own health.

“Like the patient communities we serve, we deeply care about the health of our employees. Without our people, we can’t deliver outcomes for our patients and customers.”

About Sanofi

Sanofi is dedicated to supporting people through their health challenges. We are a global biopharmaceutical company focused on human health. We prevent illness with vaccines, provide innovative treatments to fight pain and ease suffering. We stand by the few who suffer from rare diseases and the millions with long-term chronic conditions.

With more than 100,000 people in 100 countries, Sanofi is transforming scientific innovation into healthcare solutions around the globe.
